

Antony Waste Handling Cell Limited

Q3 FY24 Investor Presentation

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Antony Waste Handling Cell Limited (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Industry Dynamics

India's Waste Management Industry has enormous growth potential

Waste Management Industry (FY22)

On average India practices higher open dumping vs global average

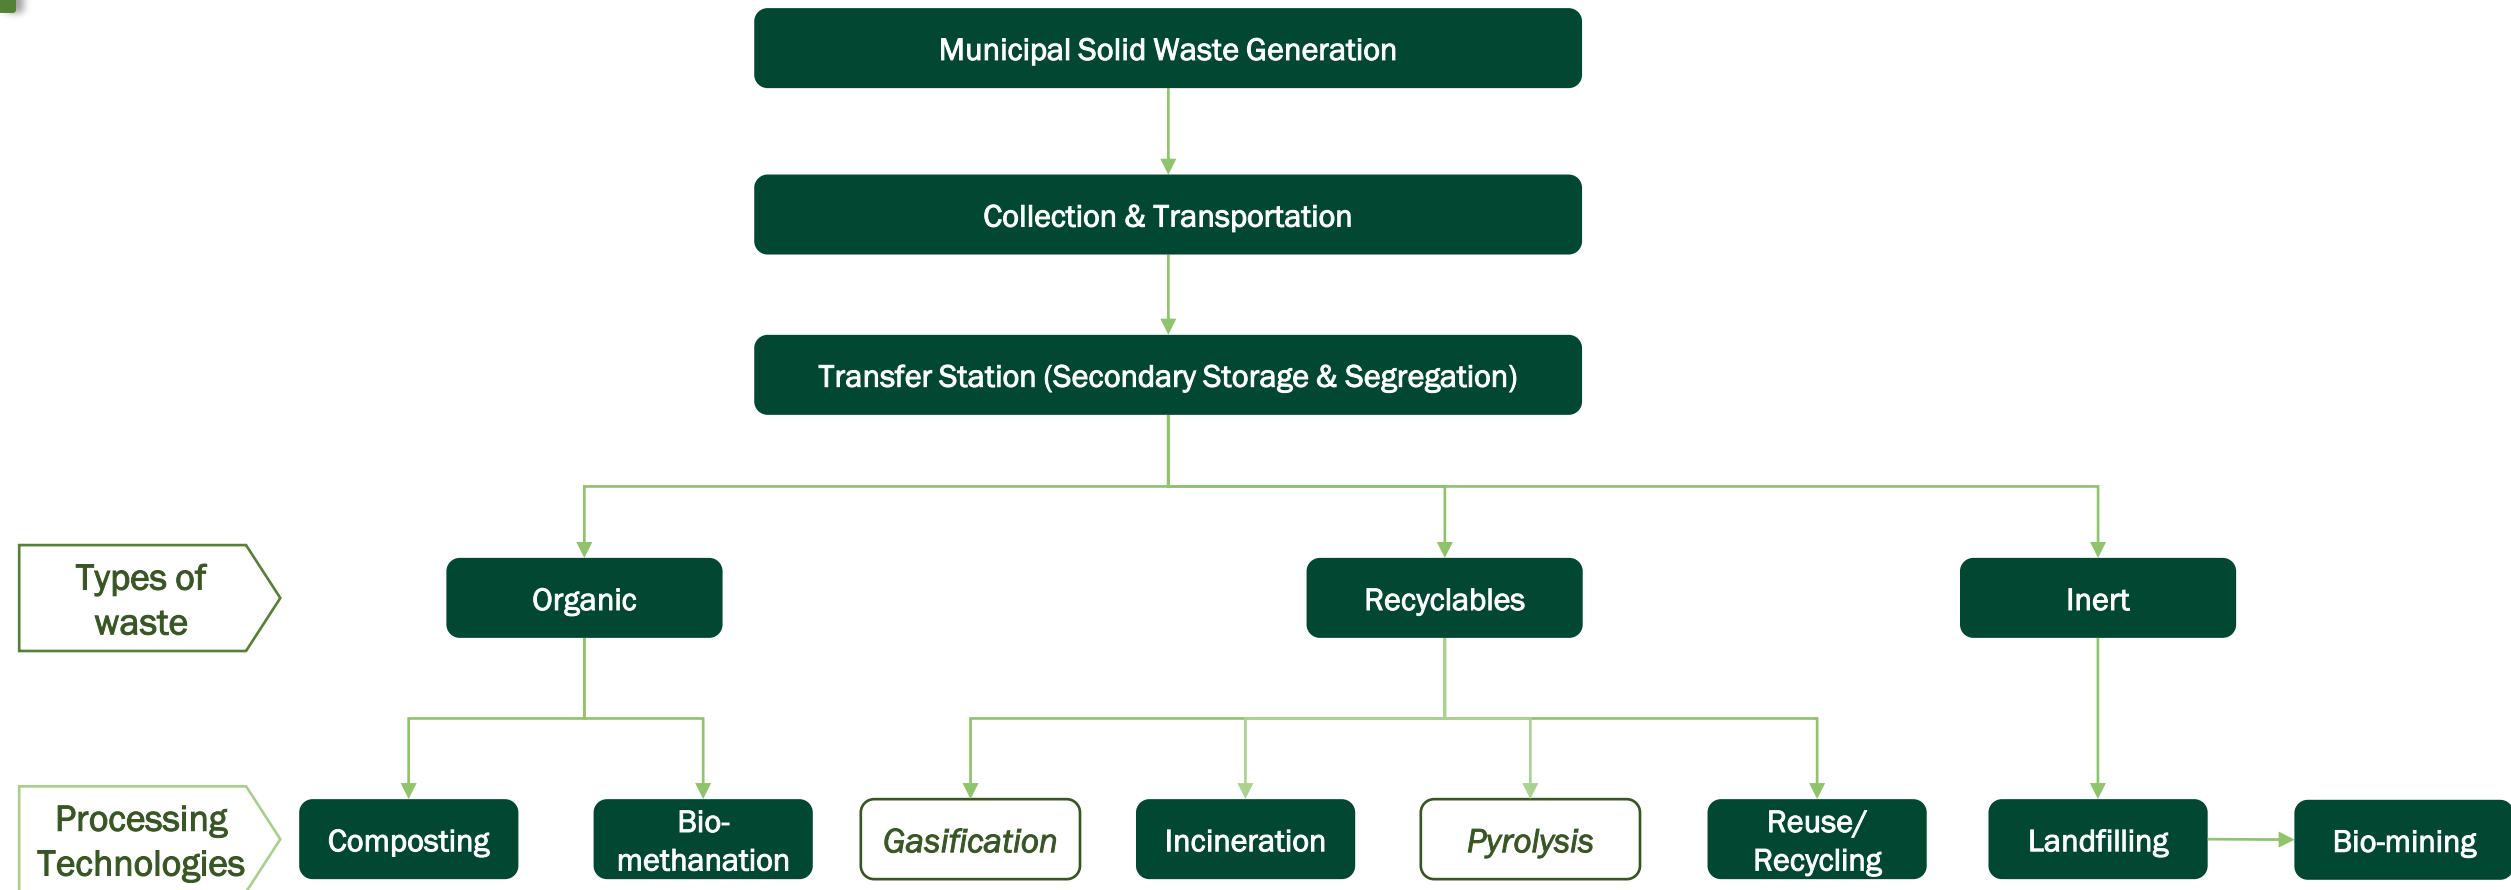

MSWM is expected to double in India in the next 5 yrs

Geography wise Vehicle Scrapping Market by size (₹ in Cr.)

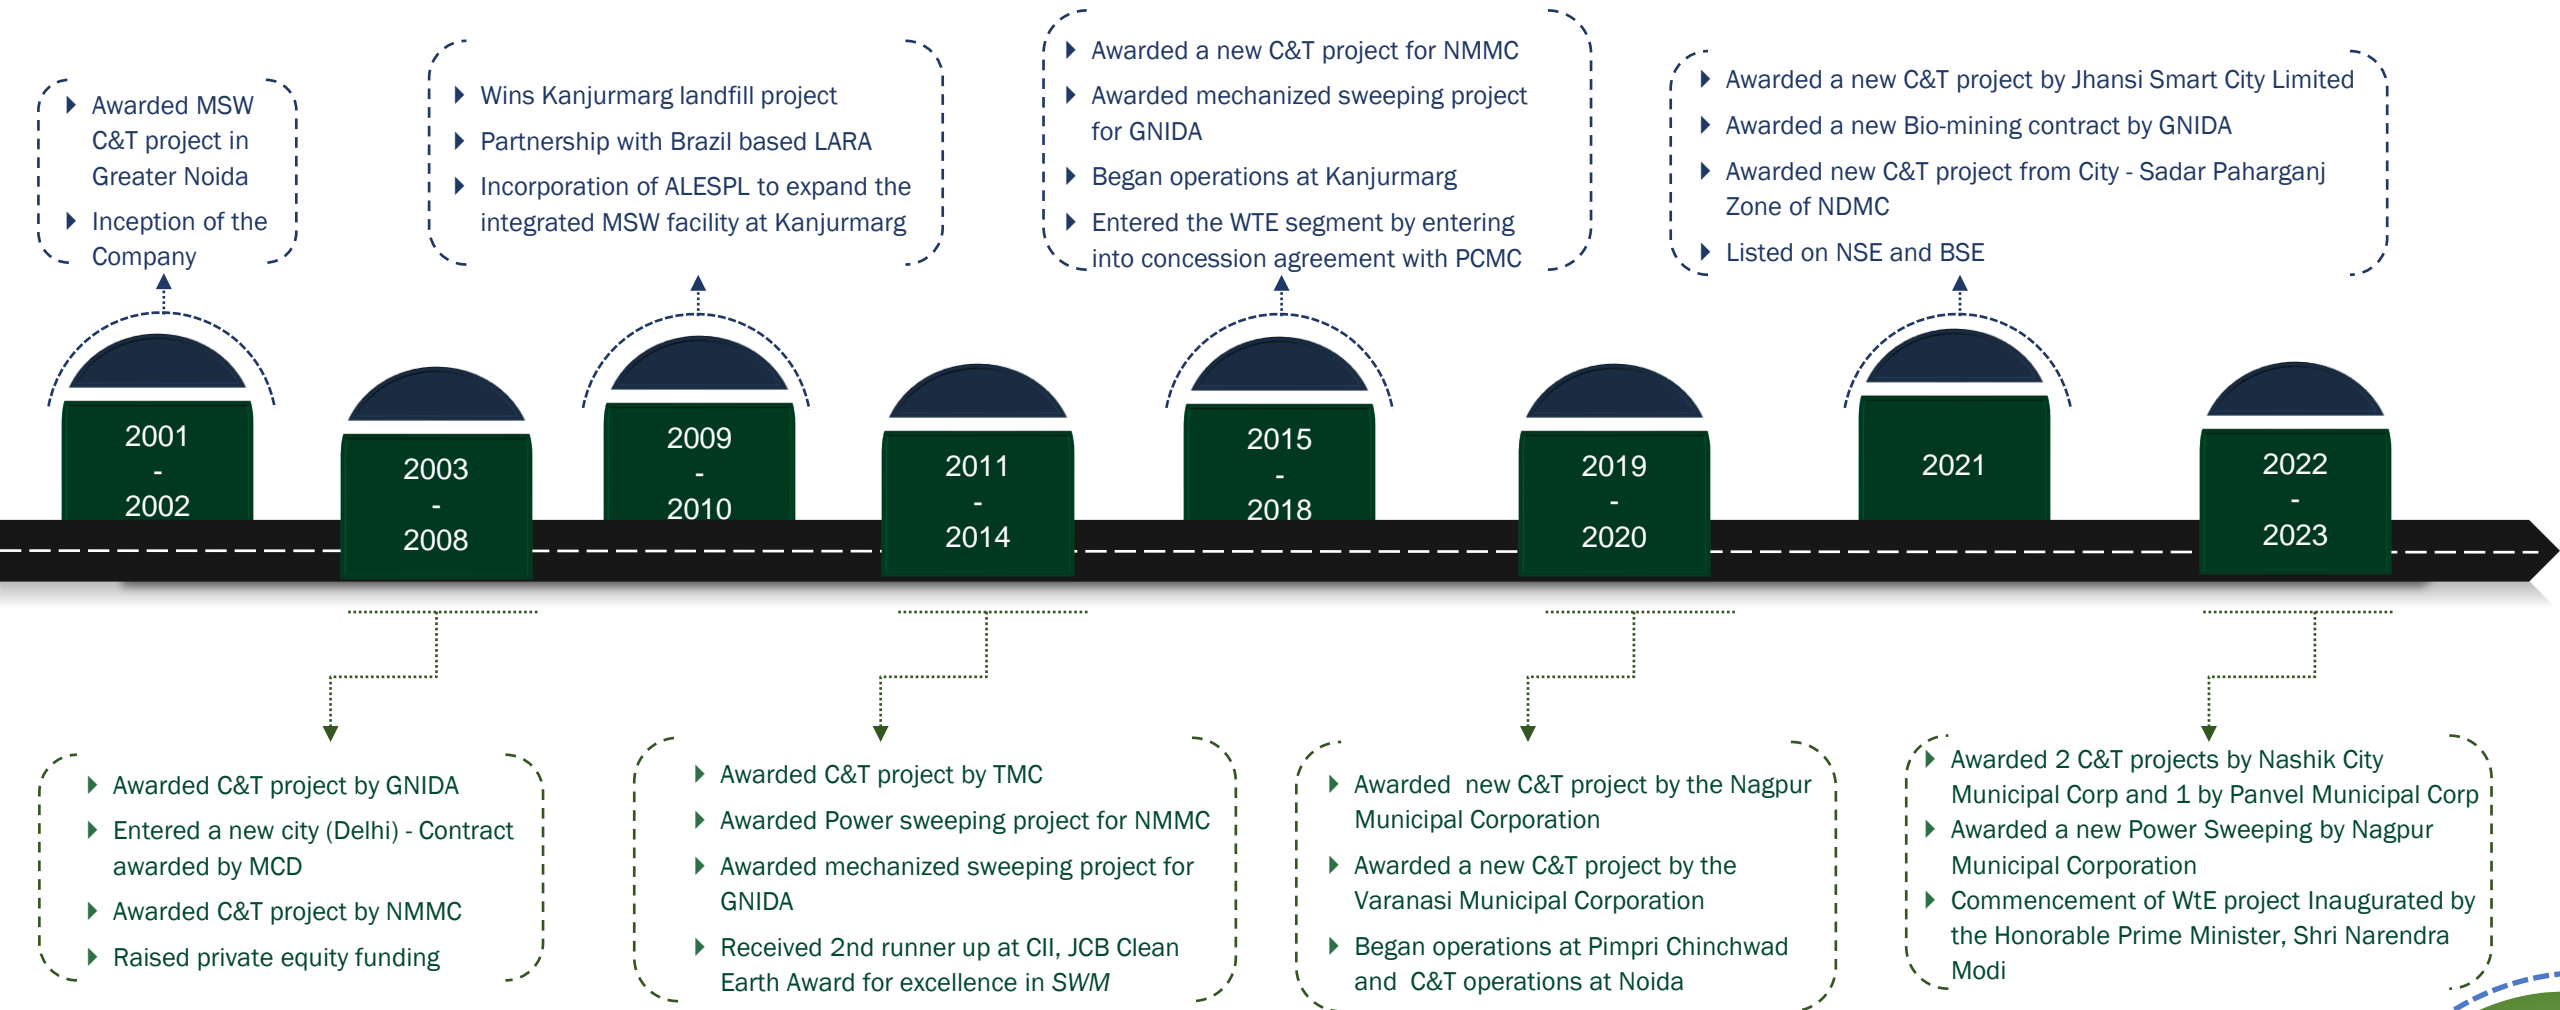

Presence Across Value Chain

 - Antony's presence in the activity

Journey of Antony so far....

Our Core Competencies

Access to technology backed vehicles and equipment enables us to manage our operations efficiently

Experienced management team with strong domain expertise

Diversified business model

A leading service provider in Municipal Solid Waste management sector with end-to-end capabilities

Strong track record of project execution

Sustainability with growth

End-to-end waste management capabilities...

Involves door to door collection of MSW from households, commercial establishments etc.

1

Door to door collection

Segregation involves separation of organic waste from recyclables and inert material

3

Segregation

Recyclables are segregated and sold to downward recyclers for further processing

5

Recycling

Handles ~700 TPD waste at PCMC facility generating 8 MW to 14 MW power using mixed MSW

7

Waste to Energy

Transportation

2

Strong C&T capabilities with a large fleet of vehicles. Waste is transported to the processing facility, transfer station or a landfill

Construction & Management of Landfills

4

Manages largest bio-reactor landfill. Handles ~5,800 TPD waste at Kanjurmarg facility through MRF, bio-reactor landfill & sanitary landfill operations

Composting

6

Organic material is processed to produce compost

Sustainability with growth

...with diversified revenue streams...

MSW C&T

54%
Revenue
Contribution

- Door to door collection through primary collection vehicles
- Transportation of waste to processing facility, transfer station or a landfill disposal site
- Revenue calculation based on No. of trips/ Per tons/ Fixed per day
- Escalation based on flat rate/ inflation/ formulas
- Currently 17 on-going contracts
- Average on-going contract duration is 7.7 years

MSW Processing

20%
Revenue
Contribution

- Involve sorting & segregating waste received from MSW C&T
- Followed by composting, recycling, shredding & compressing into RDF
- Revenue calculation based on Per hectare/ Km/ hour
- Escalation based on flat rate/ inflation
- Currently 3 on-going contracts
- Average on-going contract duration is 23 years

Contract & Others

26%
Revenue
Contribution

- Integrated mechanical & manual sweeping of streets, sale of goods, Revenue from sale of scrap
- Contract revenue arising from IND-AS treatment for capex incurred at DBOOT projects
- Revenue calculation based on Per hectare/ Km/ hour
- Escalation based on flat rate/ inflation
- 2 DBOOT projects & 5 Mechanical Sweeping projects

**Limited project &
counter-party credit risk**

User Fees

Reducing collections risk through user fee collection from waste generators in NOIDA and Varanasi

Client Selection

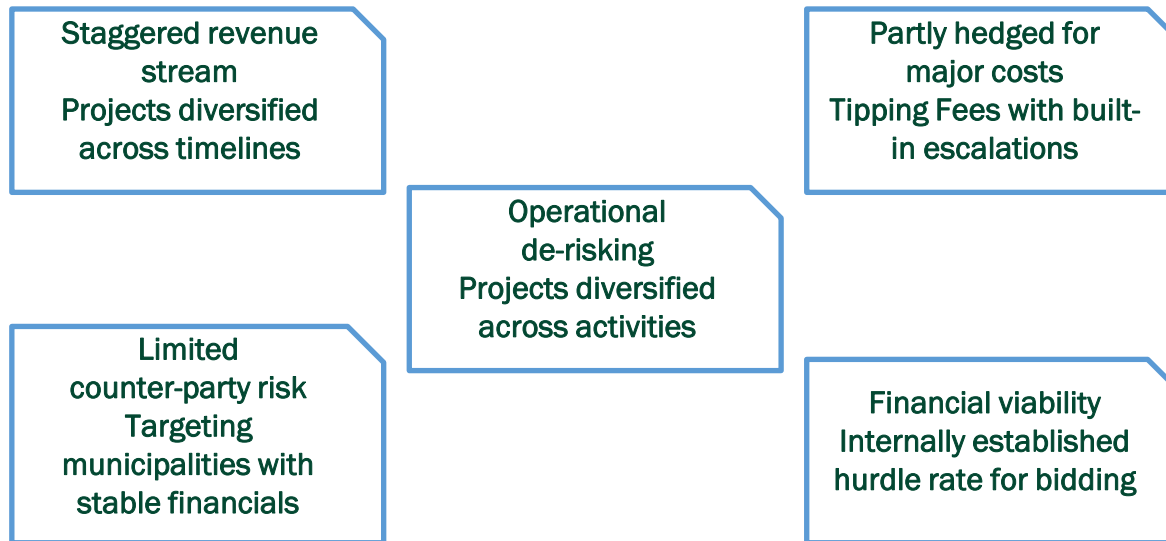

Focus on municipal corporations with strong financials/ credit ratings

Detailed viability analysis of the project

- Focus on contracts with pass-through escalations for major costs
- Rational bidding after background research

...and a De-Risked business model.

Factors de-risking the business model

Revenue from operations

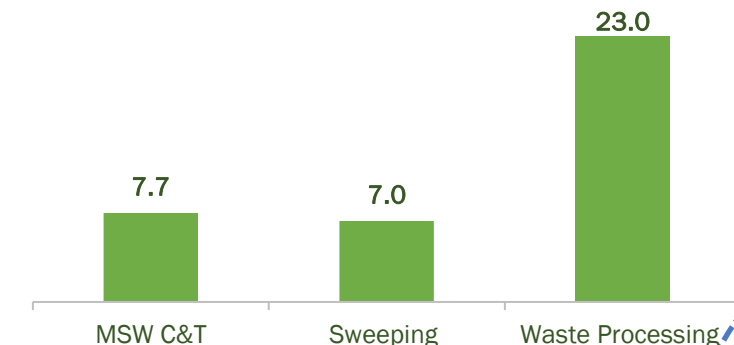

Number of Projects

Revenue from Operations (Rs. In Cr)

Average ongoing contract durations in years

Sustainability with growth

Experience in Project Execution Across the Country

One of the largest single location plant* in Asia

2010-2036

Project Tenure

**~13 Years
Balance Tenure**

- TPD of MSW: Capable of handling **~7,500 TPD**
- It is one of the largest facility producing refuse-derived fuel (RDF) with a gross calorific value of over **4,000 cal/g***
- Record sales of RDF stood at **47,000 tons** in Q3FY24.
- Recorded compost sale of **3,200 mt** in Q3FY24

~5,800 Tonnes

Currently handling waste per day

14.07 mmt

Since project inception till Dec 2023

बृहन्मुंबई
महानगरपालिका
Municipal Corporation
of Greater Mumbai

Customer

~90%

Of waste generated in Mumbai is handled at Kanjurmarg site

Project scope

- Design, Construction, operation & maintenance of integrated waste management facilities on DBOOT basis

Capacity

- Bio-reactor Landfill with **6,500 TPD** capacity
- Sanitary Landfill of **250 TPD**
- Material Recovery & Composting Facility (capacity of **1,000 TPD**)
- Gas to Energy plant – **0.97 MW**

We operate one of the largest single location waste processing plants in Asia

Integrated Waste-to-Energy Project

Inaugurated on *August 1, 2023* by
Shri Narendra Modi, Hon'ble Prime Minister of India

**Maharashtra's
first Waste-to-
Energy project**

**Project Tenure
2019-2040**

Integrated Project

Pre-processing, Composting, Power generation and Landfill Management

Processing of 1,000 Tons Per Day of Municipal Solid Waste

14 MW of Clean and Green Energy –
PCMC to purchase power at **₹ 5 per unit** during concession period

First municipality to buy power under the Green Energy Open Access Rules

Commencement of commercial power sale to PCMC in **Oct'23**

30 acres of land provided by corporation

Project is estimated to save ~7 lakhs tons of CO₂ annually, equivalent to ~1.5 lakhs passenger cars' emissions.

Entire project utilizes recycled water from the Chikali Sewage Treatment Plant (STP), eliminating need for fresh-water dependency

Sustainability with growth

Promoters & Board of Directors

Promoter Directors

Chairman & Managing Director

Jose Jacob Kallarakal

- >20 years experience in waste management
- Majorly responsible for the business development initiatives
- Authentic Leader Development Course from Harvard Business School, Boston and B.E. in Mechanical Eng. from Bharati Vidyapeeth's College of Eng., Univ. of Mumbai

Executive Director

Shiju Jacob Kallarakal

- > 20 years of experience in waste management
- Overlooks the business development with the legal functions of the company
- B.E. in Chemical from Bharati Vidyapeeth's College of Eng., Univ. of Mumbai

Non-Executive Director

Shiju Antony Kallarakal

- > 20 years of experience in automobile sector and more than 6 years in waste management sector
- Prior to joining Antony Lara Enviro Solutions P Ltd was associated with Antony Motors P Ltd and Antony Garages P Ltd

Independent Directors

Independent Director

Ajit Kumar Jain

- Director of Environment Research Foundation
- Holds Master's degree in chemistry, Agra University & political science, Meerut University & Master's degree in social science, University of Birmingham

Independent Director

Suneet K Maheshwari

- >35 years experience in financial & infrastructure sector and in public-private partnerships & currently Partner of Udvik Infrastructure Advisors LLP
- Holds MBA from the Symbiosis Institute of Business Management from the University of Pune

Independent Director

Priya Balasubramanian

- >10 years experience in securities market
- Previously associated with Lehman Brothers, Barclays Securities (India) and Barclays Capital Services
- Holds a PGDM from IIM, Ahmedabad

Our Strategy

Capitalize on growth opportunities in MSW management sector

Continue with rational selection of projects and strategically expand our geographical footprint

Moving up MSW value chain by diversifying into emerging waste management areas

Focus on enhancing operational efficiency

Cluster based approach for growth

- Traditionally we have followed cluster-based approach to bid for projects –
- 7 on-going projects in MMR
- 6 on-going projects around NCR
- Continue to focus on bidding projects in new states in clusters to increase profitability and efficiency
- Tap huge opportunity in the sector available due to growth & increasing trend towards privatization of MSW management industry

Rational Selection of Projects For Expansion

- Experience, credentials & financial strength makes us eligible to bid for most projects in MSW sector
- Continue focus on calibrated growth with selection of projects which are viable
- Pursue a broad range of projects in urban or semi-urban areas with limited counter-party risks and healthy operating margins

WTE, Segregation and Bio Mining

- WTE – Focus on waste to energy with assured raw material and signed power offtake agreements
- Focus on selling recyclables and RDF as an added source of revenue
- Focus on Bio mining which can be used to reclaim dump sites in Tier 1 & Tier 2 cities which has huge potential w.r.t number of dump sites over last 15 years

Emerging areas of growth

Biomethanation

- Anaerobic fermentation of bio-degradable waste in an enclosed space - generates methane rich bio-gas fuel and sludge, used for making compost
- Like composting, biomethanation is also a technically suitable option for Indian municipal waste due to high organic and moisture content
- Plants can be of small scale (5 TPD, for population size of 5,000 to 25,000)

Refuse Derived Fuel

- Refers to residual dry combustible fraction of municipal solid waste such as leather, paper, textile, rubber, non-recyclable plastic etc.
- Used as a substitute for coal in energy intensive processes such as cement kilns, power production and steel manufacturing

Bio-mining

- Loosened layers of old waste are sprayed with composting bio cultures and then formed into conventional aerobic windrows on the site, the waste is then sterilized, stabilized, and readied for segregation using machinery as organic and inorganic substances to be later sent for recycling, re-using or composting
- World's largest Biomining project on 24 hectares of land was started in 2018 at Mulund dumping ground
- Other cities like Indore, Delhi, Mangalore, Coimbatore, Pune, Kolhapur and Kolkata have started Bio mining projects recently

Population ('000)	Waste Qty (TPD)	Treatment option	Approx. Capex (Rs. lakhs/TPD)	Products
15 – 50	3 – 10	Bio-methanation & conventional composting	20	Bio-gas & manure
		Vermi composting	8	Compost
		Conventional composting	10	Compost
50 – 100	10 – 20	Bio-Methanation & conventional composting/ vermi composting	10	Bio-gas & Compost
100 – 1,000	20 – 350	Integrated waste processing –Bio-methanation / Compost/ RDF	4	Bio-gas, Compost & RDF
1,000 – 20,000	350 – 8,000	Integrated waste processing –Bio-methanation / compost/ RDF/ WTE	15 – 20	Bio-gas, Compost, RDF & Electricity

ESG

We are a ESG centric Business

Social

Environmental

One site using byproducts to generate renewable energy (fulfilling >80% of energy requirement in operations). Target is to operationalize the second WTE site by FY 24.

Greenhouse gases generated from BLF station & leachate treatment plan are captured and flared to reduce emissions.

Vehicles for C&T comply with BS - VI norms & maintain PUC.

Leachate is treated to reduce Biochemical Oxygen Demand (BOD) levels within permissible limits.

Target to achieve LTIFR rate of <0.30 by FY 24. Conduct employee trainings regularly on construction dangers, waste management, machine/ fire safety, emergency material handling, and heavy vehicle safety.

100% Coverage of POSH policy across all the sites. We have implemented Anti-sexual Harassment Policy for all employees.

We have "Responsible & Ethical Suppliers Code of Conduct" that require our suppliers, vendors & subcontractors to comply with.

We have CSR Policy as per Schedule VII of the Company Act, 2013. The main focus being Health, Education, and Environment.

Best practices in community grievance redressal are followed at sites.

Governance

Board of 6 members, headed by Chairman & MD, has 3 Independent Directors including one independent Woman Director.

Committees including Audit, Nomination Remuneration, and Stakeholders Relationship Committee, all are chaired by an Independent Director.

Vigil Mechanism/ Whistle-blower Policy to facilitate reporting of genuine concerns or grievances.

Code of Conduct applies to all Directors and Senior Members of the core management team who are one level below the Board.

Credit Rating

Detailed Rationale

- Ratings of Antony Lara Enviro Solutions Private Limited (ALESPL), material subsidiary of the Company continue to reflect:
 - **Extensive industry experience of the promoters:** The promoters have an experience of more than two decades in waste management industry. This has given them an understanding of the dynamics of the market and enabled them to establish relationships with various municipal corporation.
 - **Long term revenue visibility supported by agreement with Brihanmumbai Municipal Corporation (BMC):** Entered into service concession agreement for 25 years with BMC, with assured minimum guarantee quantity of 3000 tonnes per day, along with increasing tipping fee for each year
 - **Efficient working capital cycle:** Billing to BMC is done on monthly basis and payment received within 20-30 days. Furthermore, to meet its business requirement, it doesn't need to hold large inventory. This leads to low dependence on bank debt
 - **Adequate debt service coverage ratio (DSCR) coupled with escrow mechanism and adequate liquidity:** An escrow mechanism ensures priority of term loan repayment
